

LEADERS IN BIOTECHNOLOGY

www.dlipindustrial.com

About us?

- Ecuadorian Family Owned Company
- Founded in 2010
- Certifications

Product line

- Hydrolyzed Powder
- Micro Encapsulated Powder
- Drinkable Liquid Product

Benefits

- Consumer driven
- High quality raw material of from the Andes and Amazon Region
- Safety
- Functional and Nutraceutical Products

I+D+I

The Research Development and Innovation Department studies, collaborates and participates with our clients in all stages of the design of new products from formulation, organoleptic adjustments, physical-chemical and nutritional characterization, microbiological studies and shelf life tests. It also works continuously in the search for new functional and natural ingredients that allow the company to obtain products with added value that meet the highest standards of quality and food safety.

We work together with our clients in packaging innovation in order to guarantee the shelf life of the product and the preservation of its nutritional properties.

International presence

- We offer 2 product lines: bulk or final product:
- We offer raw materials to provide added value to your final product.
- We serve in the national and international market with our own brand "LIVE" or white label.

Hydrolyzed

Quinoa

Sacha Inchi

Sangorache Known as de Incas "protein"

Lupino

Pea

Microencapsulated fruit

Golden Berry
Andean Berry
Dragon Fruit
Passion fruit
Soursop
Mango
Tamarillo
Lulo
Blackberry
Strawberry
Apple
Banana
Beet
Carrot
Among others

Antioxidant Activity

GUANABANA WITH MANGO
MICROENCAPSULATED POWDER

It concentrates the natural properties of the soursop and the mango, it contains a higher concentration of nutrients improving its absorption, It has a longer duration, it does not oxidize or degrade, it mixes easily with the liquid, which allows its easy preparation, Ideal to take anywhere, since it does not need refrigeration.

ALOE VERA (SÁBILA)
MICROENCAPSULATED POWDER

It is an excellent source of nutrients as it has vitamins and antioxidants, calcium and proteins. Aloe vera contains a great variety of elements that can be used by our body to fulfill metabolic missions. Pure Aloe vera gel contains Vitamins A, C and E and Minerals such as sulfur, calcium, magnesium, zinc, selenium and chromium. In addition, it is a plant high in antioxidants, enzymes, fiber, sterols, lignins, and polysaccharides. Thanks to this great variety of nutrients, many benefits can be obtained for our health.

VEGETAL PROTEIN
MICROENCAPSULATED POWDER

Powdered mixture composed of Sacha inchi, Quinoa and Chocho hydrolyzed with cocoa, ideal as a protein source (approximately 47% protein), 0% fat, 0% cholesterol, sugar free, free of dyes, preservatives, gluten, lactose, allergens and Genetically modified organisms.

SMOOTHIES
MICROENCAPSULATED POWDER

It is a 100% natural product, it is a product that has nutritional qualities such as antioxidant, detoxifier, a source of water-soluble vitamins and minerals such as iron, calcium, potassium, magnesium and phosphorus.

MORTIÑO WITH VITAMIN C AND ZINC
MICROENCAPSULATED POWDER

The Mortiño Natural Microencapsulated Food Supplement powder with Vitamin C and Zinc is a product developed in order to help strengthen the immune system and maintain health.

COLLAGEN
